In case of qualification No. 2, since the matter is subjudice the auction value cannot be adjusted with loan amount, and In case of qualification No. 3, the sale value of equity shares taken by REC for D.P. accounts has not been intimated; Hence the same not accounted for. Further, the Management will take the necessary actions in this regard in the subsequent years.

The observation made in the Auditors' Report read together with relevant notes thereon are self explanatory other than mentioned above and hence, do not call for any further comments under Section 134 of the Companies Act, 2013.

MANAGEMENT DISCUSSION AND ANALYSIS REPORT

Economic Overview :

There has been a number of causes behind growth of Indian economy in last couple of years. A number of reforms have been instituted by Indian Government and there has been significant amount of foreign direct Investment made in India.

India's foreign exchange reserve have gone up in last few years. Real estate/Infra sector as well as information technology industries of India have taken off. Capital Markets of India are doing pretty well too. All these factors have contributed to the growth of Indian economy.

Industry Structure and Development – Overview :

Indian economy is going through a period of rapid 'financial liberalisation'. Today, the 'intermediation' is being conducted by a wide range of financial institutions through a plethora of customer friendly financial products. The segment consisting of NBFCs, such as equipment leasing/hire purchase finance, loan and investment companies, etc. have made great strides in recent years and are meeting the diverse financial needs of the economy. These NBFCs provide a variety of services including fund-based and fee-based activities and cater to retail and non-retail markets and niche segments. They are being recognized as complementary to the banking sector due to their customer-oriented services, simplified procedures, attractive rates of return on deposits, flexibility and timeliness in meeting the credit needs of specified sectors.

With virtually all finance company business lines coming under greater competitive pressure, defining strategic initiatives and backing each with the necessary resources has become imperative for success. On the consumer side of the business, the ability to compete in various product offerings often is dictated by operational efficiencies and economies of scale. In this respect NBFC's face problems of high cost of funds because they lack the nation wide branch network and have a comparatively lower Tier-I and Tier- II capital base.

We witness that NBFC sector, in India are facing stiff competition from different banks and financial institutions. The cost of funds of banks is lower as compared to NBFC's. Not only this, they have a very wide network and huge capital base which makes them more attractive than NBFC'. However as the market is volatile in nature, the long term growth of capital market calls for a matter of concern.

Opportunities, threats, risks and concerns :

Being a Financial company, SVIL is exposed to specific risks that are particular to its business and the environment within which it operates, including interest rate volatility, economic cycle, credit risk and market risk. The most important among them are credit risk, market risk and operational risk. The measurement, monitoring management of risk remains key focus areas for the company.

Your Company has operations in finance and equity investments. The independent finance industry issues debt and lends the proceeds to individuals (consumer finance companies) and corporations (commercial finance companies) on both a secured and unsecured basis. Unlike the commercial banks, whose deposit taking ability adds significantly to funding availability, finance companies rely almost exclusively on institutional borrowings and access to the public debt markets for funding. Consequently, the ability to access the short, medium and long-term markets at competitive rates is critical to their ongoing viability. Your company faces tough competition from Nationalized, Foreign and Private Sector Banks due to their inability to grant loan at a considerably low rate of interest.

The company has its own specific risks that are particular to its business including default risk, fluctuation of interest rates, economic cycles etc. Moreover existing banks are moving into retail sector and regional

banks like Assamese banks are coming into play, which poses major concern for your company. The volatility in the market is a matter of concern. However economic parameters being strong will upsurge the economy. Your company has a well defined and prudent business practice and a comprehensive Risk Management Policy to manage this risk.

Future Outlook :

Your Company is currently engaged in NBFC activities & Financial Management Services. The Company intends to continue focusing on NBFC activities including financing, Inter-corporate Investments & Capital Market activities. At the same time the company has plans to expand its business by offering a wide array of financial products and services.

With a dedicated team of people, the Company expects to establish growth ahead of market in the coming years. It would definitely try to establish itself and remain as a strong player in the finance industry. With the Capital market expected to be in a better mode than the previous few years and with our efforts we can look forward to a prosperous year for the company.

Internal Control Systems and their adequacy :

The Company has a proper and adequate system of internal control in all spheres of its activities to ensure that all its assets are safeguarded and protected against loss from unauthorized use or disposition and that the transactions are authorized, recorded and reported diligently.

The Company ensures adherence to all internal control policies and procedures as well as compliance with all regulatory guidelines.

Material Development in Human Resources/industrial relations front number of people employed :

TO THE INDEPENDENT AUDITORS' REPORT

Referred to in paragraph 2(f) of our Report of even date on the financial statements of the Silicon Valley Infotech Limited for the year ended 31st March, 2017. Report on the Internal Financial Controls under Clause (i) of Sub-section 3 of Section 143 of the Companies Act, 2013 ("the Act")

We have audited the internal financial controls over financial reporting of **Silicon Valley Infotech Limited** ("the Company"), as of March 31, 2017 in conjunction with our audit of the financial statements of the Company for the year ended on that date.

Management's Responsibility for Internal Financial Controls

The Company's management is responsible for establishing and maintaining internal financial controls based on "the internal control over financial reporting criteria established by the Company considering the essential components of internal control stated in the Guidance Note on Audit of Internal Financial Controls over Financial Reporting issued by the Institute of Chartered Accountants of India"(ICAI). These responsibilities include the design, implementation and maintenance of adequate internal financial controls that were operating effectively for ensuring the orderly and efficient conduct of its business, including adherence to the company's policies, the safeguarding of its assets, the prevention and detection of frauds and errors, the accuracy and completeness of the accounting records, and the timely preparation of reliable financial information, as required under the Companies Act, 2013.

Auditors' Responsibility

Our responsibility is to express an opinion on the Company's internal financial controls over financial reporting based on our audit. We conducted our audit in accordance with the Guidance Note on Audit of Internal Financial Controls Over Financial Reporting (the "Guidance Note") and the Standards on Auditing, issued by ICAI and deemed to be prescribed under section 143(10) of the Companies Act, 2013, to the extent applicable to an audit of internal financial controls, both applicable to an audit of Internal Financial Controls and, both issued by the Institute of Chartered Accountants of India. Those Standards and the Guidance Note require that we comply with ethical requirements and plan and perform the audit to obtain reasonable assurance about whether adequate internal financial controls over financial reporting was established and maintained and if such controls operated effectively in all material respects.

Our audit involves performing procedures to obtain audit evidence about the adequacy of the internal financial controls system over financial reporting and their operating effectiveness. Our audit of internal financial controls over financial reporting included obtaining an understanding of internal financial controls over financial reporting, assessing the risk that a material weakness exists, and testing and evaluating the design and operating effectiveness of internal control based on the assessed risk. The procedures selected depend on the auditor's judgment, including the assessment of the risks of material misstatement of the financial statements, whether due to fraud or error.

We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our audit opinion on the Company's internal financial controls system over financial reporting.

Meaning of Internal Financial Controls over Financial Reporting

A company's internal financial control over financial reporting is a process designed to provide reasonable assurance regarding the reliability of financial reporting and the preparation of financial statements for

external purposes in accordance with generally accepted accounting principles. A company's internal financial control over financial reporting includes those policies and procedures that (1) pertain to the maintenance of records that, in reasonable detail, accurately and fairly reflect the transactions and dispositions of the assets of the company; (2) provide reasonable assurance that transactions are recorded as necessary to permit preparation of financial statements in accordance with generally accepted accounting principles, and that receipts and expenditures of the company are being made only in accordance with authorisations of management and directors of the company; and (3) provide reasonable assurance regarding prevention or timely detection of unauthorised acquisition, use, or disposition of the company's assets that could have a material effect on the financial statements.

Inherent Limitations of Internal Financial Controls over Financial Reporting

Because of the inherent limitations of internal financial controls over financial reporting, including the possibility of collusion or improper management override of controls, material Misstatements due to error or fraud may occur and not be detected. Also, projections of any evaluation of the internal financial controls over financial reporting to future periods are subject to the risk that the internal financial control over financial reporting may become inadequate because of changes in conditions, or that the degree of compliance with the policies or procedures may deteriorate.

Opinion

In our opinion, the Company has, in all material respects, an adequate internal financial controls system over financial reporting and such internal financial controls over financial reporting were commensurate with the nature of the business of the Company and operating effectively as at March 31, 2017, based on "the internal control over financial reporting criteria established by the Company considering the essential components of internal control stated in the Guidance Note on Audit of Internal Financial Controls Over Financial Reporting issued by the Institute of Chartered Accountants of India".
